Apply for a Patient Safety Advancement Grant

Faculty, staff and students at the medical center can now apply for grant funding through the Patient Safety Advancement Grants (PSAG) that help further advance quality and patient safety through innovative approaches to improve patient outcomes or preventing patient harm.

Up to four grants of $25,000 each in total direct costs for up to one year will be awarded. Projects should further advance quality and patient safety by improving patient outcomes and/or preventing patient harm. Each funded project must be completed within one year.

Application ideas should be an innovative or novel approach to improve patient outcomes and/or prevent patient harm. They must also:

- involve a hospital associated study for humans only;
- include clear and objective goals;
- use a well-designed approach or methodology to achieve goals within the year; and
- use quantifiable measures to evaluate the effectiveness of interventions.

All applications must include:

- the application form;
- a biographical sketch of each person involved with the project;
- disclosure of any other grant support;
- disclosure if part of a company
- a letter of support from the executive sponsor;
- a confirmation commitment letter from a supervisor or faculty chair; and
- a budget form detailing how grant dollars will be allocated.

Application Deadline
Submit application as a single PDF to CCTSpilots@osumc.edu by Friday, Jan. 20, 2017 at 5 p.m.

Questions?
Contact Contact Susan Moffatt-Bruce, MD, PhD, Chief Quality and Patient Safety Officer or Tanya Mathew, CCTS Pilot Program Manager.

This program, a joint effort of The Ohio State University Wexner Medical Center and The Center for Clinical and Translational Science (CCTS), aims to help develop grass roots involvement in advancing patient safety in hospital associated studies at the medical center by soliciting and funding ideas generated by faculty, staff and residents.
