Cashiers May Have Higher Risk for BPA Exposure

Researchers have zeroed in on cashiers as one high-risk population for increased BPA exposure due to their regular handling of thermal printed receipts, which are coated with BPA.

RFA: ATRN Health Summit Travel Award

The CCTS is offering vouchers to provide travel funding support to community partners, faculty and graduate students who would like to attend and/or present a poster or oral presentation at the annual Appalachian Translational Research Network Health Summit.

This year's summit, themed "The Future of Our Health," will be hosted by West Virginia Clinical and Translational Science Institute (WVCTSI), and will be held October 15 and 16, 2015 in Charleston, West Virginia. | Deadline to submit abstracts is September 1, 2015

Register for BRUTx, 2015 CCTS Annual Scientific Meeting

Registration is now open for "BRUTx - Innovation, Implementation, and Impact in Translational Science."

This year's CCTS Annual Scientific Meeting is modeled after TEDx-style presentations and will take place September 29, 2015, 8:00am - 3:00pm in the Ohio Union - US Bank Conference.
Theater.

Seating is limited for this event, so register today to get a seat at this exciting event where speakers from the Ohio State community will share thought-provoking and interactive ideas to improve human health.

Pragmatic Clinical Trials Network

The Pragmatic Clinical Trials Network is a partnership between the Division of General Internal Medicine, the Clinical Trials Management Office, and the CCTS.

This partnership helps to develop infrastructure and mechanisms for implementing clinical trials in the General Internal Medicine primary care clinics. | Learn more

Core Services Voucher to begin phase 2 with eight new services

The CCTS Core Services Voucher Program will make eight new services eligible for clinical research teams at Ohio State and Nationwide Children's Hospital beginning in September. | Learn more about the new services

Researchers can request the voucher service through the Computerized Research Record (CoRR) service request system, which will begin the process. All researchers with approved requests will work with the core service staff to complete the process and receive their voucher award.

Core Management Training Series

The CCTS is co-sponsoring a Core Management Training Series in collaboration with the Comprehensive Cancer Center and the OSU Office of Business and Finance.

This training, meeting weekly for three sessions and beginning October 6, 2015, has been designed to help core managers and supporting staff develop best practice competencies for operating shared resources/cores.

Discovery Grants Program & New Nationwide/COM Cross-Campus Collaborative Pilot Program

The College of Medicine is offering a Dean's Discovery Grants Program to provide sufficient research support to generate pilot data for extramural grant applications.

There will also be a new Nationwide Children's Hospital & Research Institute/College of Medicine Cross-Campus Collaborative Pilot Program beginning this year to facilitate collaborative pilot projects between faculty.
