Genome Library, Blood Test Aim to Minimize Statin Side Effects, Maximize Benefits

Joseph Kitzmiller, MD, PhD, and his research team are in the process of developing a multi-gene blood test that could tell clinicians if their patients have any of the genetic culprits that are likely to lead to muscle problems or other side effects from statins.

Kitzmiller hopes to put all of his research team's findings into a resource library to help clinicians manage statin therapy in their patients to improve outcomes.

Last Chance to Register for BRUTx

Registration is still open for next week's big event - "BRUTx - Innovation, Implementation, and Impact in Translational Science."

This year's CCTS Annual Scientific Meeting is modeled after TEDx-style presentations and will take place September 29, 2015, 8:00am - 3:00pm in the Ohio Union - US Bank Conference Theater.

Seating is limited for this event, so register today to get a seat at this exciting event where speakers from the Ohio State community will share thought-provoking and interactive ideas to improve human health.

See the agenda and register | BRUTx Speaker Honored with International Award

RFA: Patient Safety Advancement Grant

The CCTS and the Ohio State Wexner Medical Center are pleased to announce the Patient Safety Advancement Grant Project RFA.
the Patient Safety Advancement Grant Project RFA.

This is a program to help develop grass roots involvement in advancing patient safety through ideas generated by Wexner Medical Center faculty, staff, and residents. **Deadline to submit abstracts is November 16, 2015**

---

**CCTS Staff Meet & Greet at OSU Research Expo**

Meet CCTS staff members and get information about available services and resources at the OSU Research Expo from **9:30am - 12:00pm this Thursday, September 24, 2015**, in the Ohio Union Great Hall Meeting Room.

Get more information

---

**Tools of the Trade: Advancing Your Career in Biomedical Research**

"Tools of the Trade: Advancing Your Career in Biomedical Research" will take place **October 23, 2015, 8:45am - 3:00pm in Prior Hall, Room 620**. This program designed to introduce researchers to the resources that are available to plan and implement a successful research project.

Learn how to plan and implement a successful research project and meet some of the CCTS staff who can provide support throughout the research process.

**CCTS and College of Medicine to Announce K-Award RFAs Later This Month**

The CCTS and COM Office of Research will soon be seeking applicants for the **Pre-K Davis Bremer Award** and the **KL2 Career Development Award**.

These programs are designed to provide support to junior faculty developing research careers in clinical and translational science. RFAs will be released at the end of September. Contact Stuart Hobbs for more information. | KL2 Program

---

**RFA: Core Services Voucher Program**

The **CCTS Core Services Voucher Program** will award OSU and NCH investigators with vouchers worth up to $4,000 in eligible core services per investigator and per project.

Researchers can request the voucher service through the Computerized Research Record (CoRR) service request system, which will begin the process. All researchers with approved requests will work with the core service staff to
All researchers with approved requests will work with the core service staff to complete the process and receive their voucher award.

Core Management Training Series

The CCTS is co-sponsoring a Core Management Training Series in collaboration with the Comprehensive Cancer Center and the OSU Office of Business and Finance.

This training, meeting weekly for three sessions and beginning October 6, 2015, has been designed to help core managers and supporting staff develop best practice competencies for operating shared resources/cores.

NCH Technology Development Fund

The NCH Office of Technology Commercialization is excited to announce this year's second round of awards for the NCH Technology Development Fund (TDF) for developing promising new technologies.

Awards will be made of up to $50,000, and the application deadline is October 12, 2015.

Accelerated Research Agreements Initiative

The CTSA Consortium reached an agreement on the use of standardized documents to greatly reduce contracting delays associated with industry sponsored, multi-site study initiation.

The Accelerated Research Agreements Initiative provides agreements that are acceptable to participating institutions and organizations; when used, these will expedite the study initiation process.

Electronic Data Capture Training

The CCTS, in coordination with the Department of Biomedical Informatics, is conducting a "REDCap Advanced" training session on Friday, September 25, 2015, from 9:00 - 10:00am in Prior Hall, Room 240.

REDCap training sessions are also made available online via WebEx.

BETHA 2016 Call for Proposals

All full-time Ohio State faculty from any college or discipline are invited to submit proposals for the annual Battelle Engineering, Technology and Human Affairs (BETHA) Endowment grant competition. Battelle and Ohio State have partnered to foster programs that examine the relationship between science and technology and its impact on broader social and cultural issues.

Typically three to six awards are granted, ranging from $10,000 - $60,000. The deadline for receipt of proposals is November 24, 2015 at 5:00pm.

Collaborative Innovation Award, Clinical and Translational Science Award (CTSA) Program (U01)

The purpose of this funding opportunity announcement (FOA) is to invite applications to stimulate innovative collaborative research in the NCATS' Clinical and Translational Science Award (CTSA) consortium.

This FOA is one of several sequential steps being taken by NCATS to evolve the CTSA program to augment its ability to "enhance the transit of therapeutics, diagnostics, and preventative interventions along the developmental pipeline; disseminate innovative translational research methods and best practices; and provide leadership in informatics standards and policy development to promote shared resources."

X02 Pre-applications are encouraged.
