ADVANCED COMPUTATIONAL NEUROSCIENCE NETWORK

Big Data Workshop 2023

9th MEETING

THURSDAY, SEPTEMBER 14

FRIDAY, SEPTEMBER 15

KEYNOTE

Sean Hill, Centre for Addiction and Mental Health, & University of Toronto

SPEAKERS

Mathew Abrams, International Neuroinformatics Coordinating Facility

Justin Baker, McLean Hospital

Janine Bijsterbosch, Washington University

Carlos Cardenas-Iniguez, University of Southern California

Andrew Curtis, Case Western Reserve University

Neda Jahanshad, University of Southern California

Shawn Murphy, Massachusetts General Hospital

Xia Ning, The Ohio State University

Rosanna Olsen, University of Toronto

Ruchika Prakash, The Ohio State University

Sepideh Sadaghiani, University of Illinois

Joost Wagenaar, Perelman School of Medicine

Lu Zhao, University of Southern California

THEMES

- Integration of deep phenotyping with neuroimaging
- Spatio-temporally dense data applications
- Standards, representation, and data sharing
- Posters and data blitz

Students, postdocs and faculty interested in how the brain works are welcome to participate and present

LOCATION

Pomerene Hall
1760 Neil Ave.
Columbus, OH 43210
Ohio State University

Supported by:

NSF, Midwest Big Data Hub

OSU – CCBBI, CCBS, TDAI

OSU COM – CCTS, NRI, Psychiatry

WORKSHOP

Reproducible neuroimaging research **Stephanie Noble, Yale University**
