What have been some of the biggest challenges you or your team have faced?

Have you been able to overcome those challenges?

- If so, how?
- If not, where are you getting stopped?

How have you had to change the way you work due to COVID-19?

- Learn new skills?
- Change interactions with participants?
- What methods have been successful?
- In what areas could you use more support?
- How do you plan to sustain these changes?

Have you begun to think about resuming normal operations?

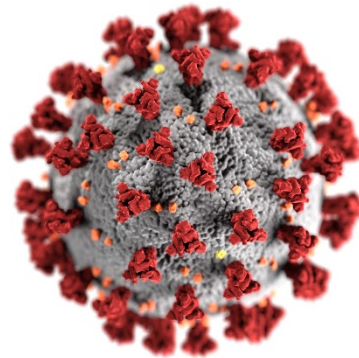

- If so, when and how?
- If not, why not and when will you?
