

## National COVID Cohort Collaborative (N3C)

**Speaker: Heidi Spratt, PhD**

Heidi Spratt, PhD is a tenured associate professor at the University of Texas Medical Branch in the Department of Preventive Medicine and Population Health where she is primarily a collaborative biostatistician. She is currently the immediate past chair of the Biostatistics, Epidemiology, and Research Design Special Interest Group (BERD SIG) of the Association for Clinical and Translational Science. Since 2014, she has also been the secretary for the Association for Clinical and Translational Statisticians. She is actively involved in the National Covid Cohort Collaborative (N3C) where she co-leads the Clinical Scenarios working group. Dr. Spratt has served as the PI of an NIH K25 award as well as an NIH R03, and presently supports multiple investigators at UTMB with their statistical needs.
